Policy 2100

Nondiscrimination and Student Rights

The Board of Education reaffirms its belief that every student regardless of race, creed, color, sex, cultural or socioeconomic status or disabling condition be given equal opportunity for educational development.

The Board recognizes the importance of providing each student with a school environment conducive to intellectual, emotional and social growth through participation in a full range of educational programs and activities. Board and staff commitments insure equal educational opportunities in course offerings, guidance and counseling, test procedures, extracurricular activities, discipline procedures and student support services

Equal Educational Opportunity

It is the policy of the Board of Education to provide a free and appropriate education for students with disabilities. Students with disabilities are those who, because of certain atypical characteristics, have been identified by professionally qualified personnel as requiring special educational planning and services. Students with disabilities will be identified on the basis of physical, health, sensory, and/or emotional handicaps, behavioral problems or observable exceptionalities in mental ability. It is possible that a student may have more than one type of disability.

The District's programs and services available to meet the needs of these students will be in accordance with The Individuals with Disabilities Education Act, The Education for All Handicapped Students Act of 1975, The Rehabilitation Act of 1973, Section 504, and § 162.670 - .995 RSMo., Missouri Special Education Services. In addition, the identification of students with disabilities and the services provided by the District will be in accordance with the regulations and guidelines of the Missouri Department of Elementary and Secondary Education's Current Plan for Part B of The Education of the Handicapped Act, as amended. (See Policy and Regulation 6250 - Instruction for Students with Disabilities.)

Harassment

It is the policy of the District to maintain a learning environment that is free from harassment because of an individual's race, color, sex, national origin, ethnicity, disability, sexual orientation, or perceived sexual orientation. The School District prohibits any and all forms of unlawful harassment and discrimination because of race, color, sex, national origin, ethnicity, disability, sexual orientation, or perceived sexual orientation.

It shall be a violation of District policy for any student, teacher, administrator, or other school personnel of this District to harass or unlawfully discriminate against a student through conduct of a sexual nature, or regarding race, color, national origin, ethnicity, disability, sexual orientation, or perceived sexual orientation as defined by this Policy.

It shall also be a violation of District policy for any teacher, administrator, or other school personnel of this District to tolerate sexual harassment or harassment because of a student's race, color, national origin, ethnicity, disability, sexual orientation, or perceived sexual orientation, as defined by this Policy, by a student, teacher, administrator, other school personnel, or by any third parties who are participating in, observing, or otherwise engaged in activities, including sporting events and other extracurricular activities, under the auspices of the School District.

For purposes of this Policy, the term "school personnel" includes school board members, school employees, agents, volunteers, contractors, or persons subject to the supervision and control of the District.

The school system will act to promptly investigate all complaints, either formal or informal, verbal or written, of unlawful harassment or unlawful discrimination because of race, color, sex, national origin, ethnicity, disability, sexual orientation, or perceived sexual orientation; to promptly take appropriate action to protect individuals from further harassment or discrimination; and, if it determines that unlawful harassment or discrimination occurred, to promptly and appropriately discipline any student, teacher, administrator, or other school personnel who is found to have violated this Policy, and/or to take other appropriate action reasonably calculated to end the harassment/discrimination.

Searches by School Personnel

School lockers and desks are the property of the Board of Education and are provided for the convenience of students, and as such, are subject to periodic inspection without notice, without student consent, and without a search warrant. The lockers and desks may be searched by school administrators or staff who have a reasonable suspicion that the lockers or desks contain drugs, alcohol, material of a disruptive nature, stolen properties, weapons, items posing a danger to the health or safety of students and school employees, or evidence of a violation of school policy. In addition, the Board of Education authorizes the use of trained dogs to sniff lockers or other school property to assist in the detection of the presence of drugs, explosives, and other contraband.

Students or student property may be searched based on reasonable suspicion of a violation of District rules, policy or state law. Reasonable suspicion must be based on facts known to the administration, credible information provided or reasonable inference drawn from such facts or information. The privacy and dignity of students shall be respected. Searches shall be carried out in the presence of adult witnesses, if such witnesses are available. Students may be asked to empty pockets, remove jackets, coats, shoes and other articles of exterior clothing for examination if reasonable under the circumstances.

No employee shall perform a strip search of any student. The exception to this would be if a school administrator reasonably believes that a student possesses a weapon, explosive, or substance that poses an imminent threat of physical harm to himself or herself or another person, and if a commissioned law enforcement officer is not immediately available. Strip searches may be conducted by, or under the authority of, a commissioned law enforcement officer.

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains the authority to conduct routine patrols of the student parking lots. The interior of a student's automobile on school premises may be searched if a school administrator has reasonable suspicion to believe that illegal, unauthorized or contraband items, or evidence of a violation of school policy is contained inside the vehicle.

Law enforcement officials shall be contacted if the search produces a controlled substance, drug paraphernalia, weapons, stolen goods or evidence of a crime, in any case involving a violation of

law when a student refuses to allow a search, or where the search cannot safely be conducted. Parents may also be contacted. A student who refuses to submit to a search may be appropriately disciplined by school officials.

Interviews, Interrogations and Removal From School

Interview or Interrogation

The School District has legal jurisdiction over students during the school day and hours of approved extracurricular activities. The school administration is responsible for making an effort to protect each student's rights with respect to interrogations by law enforcement officials. When law enforcement officials find it necessary to question students during the school day or periods of extracurricular activities, the school principal or designee will be present and the interview will be conducted in private.

The principal will verify and record the identity of the officer or other authority and request an explanation of the need to question or interview the student at school. The principal ordinarily will make reasonable efforts to notify the student's parents/guardians.

Removal of Students From School

Before a student at school is arrested or taken into custody by a law enforcement or other legally authorized person, the principal will verify the official's authority to take custody of the student. The school principal will attempt to notify the student's parent/guardian that the student is being removed from school.

Admission and Withdrawal

Admission of Resident Students

All students, five to twenty-one (5-21) years of age, who reside within the boundaries of the District may attend District schools tuition free. In order to "reside" within the District, the student must be physically domiciled within District boundaries. The domicile of a minor child is the domicile of a parent, military guardian pursuant to a military issued guardianship, or court-appointed legal guardian.

Exceptions

The residency provisions of this policy are not applicable to homeless students, students with only one parent living, inter-District desegregation students, wards of the state, students placed in a residential care facility due to a mental illness or developmental disability, students placed in a residential facility by a juvenile court, or students attending regional or cooperative alternative education programs. The exemptions are expressly established by state law and entitle such students to tuition-free school attendance.

Students of Nonresident Teachers and Regular Employees

Nonresident students of District teachers or regular District employees may be permitted to attend school without payment of tuition. Such students will be considered to be "resident" students for purposes of state aid.

STUDENTS

Policy 2240

Admission and Tuition - Nonresident Students

Nonresident students may be permitted to attend the District schools upon payment of tuition provided the student is not barred from enrollment by provisions of the Safe Schools Act. (See Policy 2664.) Tuition rates will be determined annually by the Board of Education on the basis of the per-pupil cost for the preceding year including operation, maintenance, and debt service of the schools.

Within two (2) business days of enrollment in the District by state officials of a nonresident student pursuant to state statute, the Superintendent/designee will request the student's transfer and discipline records from all schools or facilities previously attended and from other state agencies and entities involved in the placement of the student within the twenty-four (24) month period preceding enrollment. The Superintendent/designee is authorized to share relevant portions of such student's transfer and discipline records with District employees who, based upon their duties, have a need to know such information. Such records will be maintained in confidence for purposes of maintaining discipline and for assistance to the student. The student's transfer and discipline records will not be a part of the student's permanent record nor used as the sole basis for denying educational services to a pupil.

STUDENTS

Policy 2245

Admission and Withdrawal

Transfer Students

All students entering the District from other educational settings are required to submit evidence of their achievement in the last grade attended. Grade placement of a student may be adjusted on the basis of examination of the student's previous record, achievement tests administered, or other factors that the principal and staff believe are appropriate under the circumstances. A transcript of all entering secondary school students is required before enrollment can be completed. However, a student may be permitted to enroll temporarily until a full transcript is obtained.

Transfers from Unaccredited Schools

Parents/guardians should be advised that if they choose to transfer their student to the public school from an unaccredited school, the student will not be guaranteed comparable placement in the public schools. Students transferring will be assigned an appropriate grade level and class assignment based on their educational and developmental level as determined by the principal

through assessment of student's age, educational experience, achievement tests and consultation with parent/guardian and personnel from the student's former school.

Intradistrict Transfers

The Superintendent may authorize the transfer of a student from one District school to another. Reasons for the transfer may include, but are not limited to:

1. Welfare of the student
2. Disciplinary concerns
3. Curriculum offerings
4. Special education placement
5. Parent/guardian custody
6. Relocation of residence
7. Student of a District employee
8. Transportation

The request for transfer may be initiated by the building principal and/or the parent/guardian. The request shall outline the reasons for the transfer, the positive and negative impact upon the student, and any differences of opinion about the transfer. A request for a student transfer will be submitted to the Superintendent.

Student Attendance

The Board of Education believes that regular attendance is essential to achieving success in school. Education is a total process based upon continual communication and shared responsibilities among parents, students, teachers and school. As students mature and progress through the educational system, they should increasingly assume responsibility for regular attendance. However, parents have a legal and moral responsibility to require regular attendance at school.

Attendance

Truancy and Educational Neglect

The Board of Education believes regular attendance is important to academic success. Therefore, the Board directs that problems with attendance on the part of any student be investigated and acted upon promptly.

Truancy is defined as deliberate absence from school on the part of the pupil with or without the knowledge of the parent/guardian and for which no justifiable excuse is given. When a pattern of truancy becomes evident, the principal will investigate and take such action as circumstances dictate.

Section 210.115 RSMo. Mandates reporting to the Division of Family Services when there is reasonable cause to suspect that a student's nonattendance is due to the educational neglect of the parents/guardians.

Any school official or employee who knows or has reasonable cause to suspect that a student is being subjected to home conditions or circumstances which would reasonably result in truancy will immediately report or cause a report to be made to the building principal, or his/her designee, who will then become responsible for making a report via the Student Abuse Hotline to the Missouri Division of Family Services (DFS). The building principal shall inform the Superintendent/designee that a report has been made, and keep the Superintendent apprised of the status of the case.

Student Educational Records

Policy 2400
(Regulation 2400)
(Form 2400)

A cumulative educational record shall be maintained for each student from his/her entrance into school through the last date of attendance or through graduation, whichever occurs first.

Each student's educational record will include information required by state and federal statutes, regulations or agencies and shall include other information considered necessary by school officials.

The District will comply with the mandates of the Family Educational Rights and Privacy Act (FERPA) and the Safe Schools Act regarding confidentiality of student records and disclosure of personally identifiable information.

The parents/guardians of students who are attending or have attended the District's schools have the right to inspect and review the educational records of their students and to request amendment of their students' educational records. The District has adopted procedures for the granting of parental requests for access to the educational records of their students within a reasonable period of time, but in no case more than forty-five (45) days after the request is made.

All information contained in a student's educational record, except information designated as directory information by the District, shall be confidential and shall be directly accessible only to school officials who demonstrate a legitimate educational interest in the student's records and to parents/guardians or eligible students.

Upon request by military recruiters or an institution of higher learning, the District will provide students' names, addresses and telephone listings. Parents will be notified annually of their right to individually request that such information not be released without prior parental consent. Military recruiters will be provided the same access to students as is given to institutions of higher learning.

Student Academic Achievement

Promotion and Retention

The purpose of promotions and retentions is to provide maximum consideration for the long-range welfare of the student and to provide an opportunity for each student to progress through school according to his/her own needs and abilities.

It is expected that most students in the schools will be promoted annually from one grade level to another upon completion of satisfactory work, however, a student may be retained when his/her standards of achievement or social, emotional, mental, or physical development would not allow satisfactory progress in the next higher grade. Retention normally occurs before the student leaves the primary grades.

Parents/guardians who wish to appeal the decision for retention must first contact the building principal. If parents/guardians do not accept the decision at the building level, an appeal may be made in writing to the Superintendent. All appeals must be requested within two (2) weeks after the close of school.

The process for reading assessments and remediation, and retention guidelines for students who fail to meet the District's objectives for reading, are contained in Regulation 2520 - Promotion and Retention.

The above requirements may be modified in exceptional cases with approval of the Board of Education, upon recommendation of the Superintendent.

STUDENTS

Policy 2600

Discipline

The District has the authority to control student conduct which is prejudicial to good order and discipline in the schools as provided by state law. School officials are authorized to hold students accountable for misconduct in school, on school property, during school-sponsored activities and for conduct away from school or in non-school activities which affect school discipline.

Students forfeit their right to a public school education by engaging in conduct prohibited in Regulation 2610 and related provisions. Disciplinary consequences include, but are not limited to, withdrawal of school privileges (athletics, intramurals, student clubs and activities and school social events); the reassignment of the student to another school; removal for up to ten (10) school days by school principals; extension of suspensions for a total of 180 days by the

Superintendent; and longer term suspension and expulsion from school by the Board of Education.

The District will provide annual in-service training to all employees concerning the District's discipline regulations and their implementation. Annual training will also include, but will not be limited to, approved methods of dealing with school violence, discipline of students with disabilities, and the requirements of student confidentiality.

Firearms and Weapons in School

The District recognizes firearm and weapon possession as a potential threat to the health, safety and security of students, employees, and other persons. The District will not tolerate the presence of firearms or weapons on the premises of our schools. This prohibition includes possession of firearms and weapons on school playgrounds, school parking lots, school buses, and at school activities, whether on or off school property. The District complies with the provisions of the Improving America's Schools Act of 1994, the Individuals with Disabilities Education Act, and other applicable federal and state law.

Nothing in this policy shall prohibit the District from permitting a Civil War re-enactor to bring a Civil War era weapon to school for educational purposes so long as the weapon is not loaded.

Students who violate this policy will be suspended for no less than one (1) year and are subject to permanent expulsion. However, the Superintendent may recommend to the Board a modification of the suspension on a case-by-case basis.

This policy will be annually submitted to the Department of Elementary and Secondary Education together with a report of disciplinary action taken for possession of a "firearm" or "weapon" as defined in Regulation 2620.

Student Use of Tobacco, Alcohol and Drugs

Smoking

The Board of Education believes that smoking and the use of any tobacco product is detrimental to the health and well-being of staff and students. Therefore the Board prohibits the use, sale, transfer and possession of tobacco products at school and at school activities.

Alcohol and Drug Use

The improper use of controlled substances, alcohol and substances represented to be such is detrimental to the health and welfare of students and is detrimental to discipline in school. Such conduct as well as the possession of drug paraphernalia is prohibited and is subject to disciplinary action as set forth in Regulation 2610.

Drug-Free Schools

Pursuant to requirements of the 1989 amendments of the Drug-Free Schools and Communities Act and to the requirements of the Safe Schools Act, and for the purpose of preventing the use of illicit drugs and alcohol by students, the District shall provide age-appropriate, developmentally

based drug and alcohol education and prevention programs to all students from early childhood level through grade twelve (12). (See also Policy 6130 - Drug Education.) Such programs will address the legal, social and health consequences of drug and alcohol use, and provide information about effective techniques for resisting peer pressure to use illicit drugs or alcohol.

The District shall provide information about any drug and alcohol counseling and rehabilitation and re-entry programs that are available to students. Students may be required to participate in such programs in order to avoid suspension or expulsion if they are found to be in violation of this policy. All parents/guardians and students shall annually be provided with a copy of this policy.

The District certifies that it has adopted and implemented the drug prevention program described in this policy in the form required by the Department of Elementary and Secondary Education or the United States Department of Education. The District conducts a biennial review of such program to determine its effectiveness, to implement necessary changes and to ensure that the disciplinary sanctions are consistently enforced.

No person employed by or volunteering for the School District shall administer or cause to be administered corporal punishment upon a student attending District schools.

A staff member may, however, use reasonable restraint against a student without advance notice to the principal, if it is essential for self-defense, the preservation of order, or for the protection of other persons or the property of the School District.

Student Discipline Hearings

Parents/guardians of students suspended for more than ten (10) school days may make a written request for a hearing before the Board of Education. This request will be addressed to the Superintendent who will review all matters concerning the suspension and refer the request for a Board hearing.

In conducting a discipline hearing the Board will carefully consider the information presented by the administration and by the parent/guardian. In making its decision concerning guilt and innocence as well as punishment, the Board will be mindful of Board discipline policies in place, the effect of its decision upon the individual student, and the safety and welfare of District students and staff.

Discipline of Students with Disabilities

The obligation and the responsibility to attend school regularly and to comply with the District's discipline policies applies to all students. When appropriate, the District may discipline a student with a disability who has not complied with the District's discipline policies in a manner that is consistent with the District's policies and applicable law. Special education services will be provided to a disabled student if the student has been removed from school for more than ten (10) school days. If a student with a disability is removed for less than ten (10) cumulative days,

educational services will be provided only if such services are provided to students without disabilities who have been similarly removed.

Reporting of Violent Behavior

The District requires school administrators to report acts of school violence to teachers and other District employees who are directly responsible for the student's education or who interact with the student in the performance of the employee's duties. School administrators will also disclose to appropriate staff members' portions of any student's individualized education program that is related to past or potentially future violent behavior. Violent behavior and the phrase acts of school violence are defined as the use of physical force by a student with the intent to do serious physical injury to another person while on school property, including a school bus, or while involved in school activities.

In addition the Superintendent/designee will report to law enforcement officials, as soon as is reasonably practicable, the commission of any of the acts or related juvenile offenses listed in Regulation 2673, which are committed on school property, including school buses, or while involved in school activities.

Reporting Student Abuse

The Board of Education believes that school staff members are in a unique position to assist children, families, and the community in dealing with the issue of child abuse and neglect. In addition, school employees are required by law to report instances of suspected child abuse when the employee has reasonable cause to suspect that a child has been or is likely to be abused or neglected.

Child abuse is defined as any physical injury, sexual abuse or emotional abuse inflicted on a child other than by accidental means.

Neglect is defined as the failure to provide the proper or necessary support, education, nutrition or medical, surgical or other care necessary for the child's wellbeing.

District employees who know or have reason to believe that another District employee has sexually or physically abused a student have an additional duty to notify their immediate supervisor immediately.

Student Safety

The District places a high priority on the safety of its students and employees. When a student or employee is the victim of a violent criminal offense, severe disciplinary consequences will be imposed. (See also Regulation 2610 - Behavioral Expectations.) In addition and pursuant to the No Child Left Behind Act of 2001, student victims of a violent criminal offense that was committed on school premises will be offered transfer to another District school. To insure awareness of this policy, the parents of student victims will be notified in writing of their right to a school transfer.

For purposes of this policy, a victim is a student who has suffered personal injury or injuries to his or her property as a direct result of a violent criminal offense. This definition does not include bystanders or witnesses to the act unless they suffered personal or property injury as a direct result of a violent criminal offense while on school premises.

The District will notify the Department of Elementary and Secondary Education (DESE) of all violent criminal offenses committed on school premises when the victim is a student or employee. Reportable offenses are set out in Regulation 2740.

Wellness

The District promotes healthy schools, by supporting wellness, good nutrition, and regular physical activity as part of the total learning environment. The District supports a healthy environment where children learn and participate in positive dietary and lifestyle practices. Schools contribute to the basic health status of children by facilitating learning through the support and promotion of good nutrition and physical activity. Improved health optimizes student performance potential. The goals of the District's wellness policy are as follows:

1. Provide a comprehensive learning environment for developing and practicing lifelong wellness behaviors.

The entire school environment, not just the classroom, shall be aligned with healthy school goals to positively influence a student's understanding, beliefs, and habits as they relate to good nutrition and regular physical activity. A healthy school environment should not be sacrificed because of a dependence on revenue from high added fat, high added sugar, and low nutrient foods to support school programs.

2. Support and promote proper dietary habits contributing to student's health status and academic performance.

All foods available on school grounds and at school-sponsored activities during the instructional day should meet or exceed the district nutrition standards. Emphasis should be placed on foods that are nutrient dense per calorie. To ensure high quality, nutritious meals, foods should be served with consideration toward variety, appeal, taste, safety, and packaging.

3. Provide more opportunities for students to engage in physical activity.

A quality physical education program is an essential component for all students to learn about and participate in physical activity. Physical activity should be included in a school's daily education program from grades K through 12. Physical activity should include regular instructional physical education, co-curricular activities, and recess.

4. The District is committed to improve academic performance.

Educators, administrators, parents, health practitioners, and communities should consider the critical role student health plays in academic stamina and performance and adapt the

school environment to ensure students' basic nourishment and activity needs are met. To ensure widespread understanding of the benefits to school environments where nutritious foods are provided and where students have an opportunity for physical activity, a public awareness campaign that highlights research demonstrating the positive relationship between good nutrition, physical activity, and capacity of students to develop and learn should be conducted.

5. Establish and maintain a district-wide Nutrition & Physical Activity Advisory Council with the purposes of:

- Developing guidance to this policy
- Monitoring the implementation of this policy
- Evaluating policy progress
- Serving as a resource to school sites
- Revising policy as necessary

Guidance and Counseling Services

The Board of Education supports a systematic program of Guidance and Counseling which will be provided to all students from kindergarten through twelfth grade. This program will be a total education process with a priority of assisting students in reaching their full potential in their personal and educational development.

The Guidance and Counseling program may include the following areas:

1. Counseling
2. Developmental Guidance
3. Testing
4. Orientation, Registration, and Scheduling
5. Referrals

Assessment and Referrals to Outside Services

The counseling staff, in consultation with other staff members, is responsible for the initial assessment of students' academic progress as well as personal/social concerns. Where necessary, the District will make available responsive services including individual and small group counseling, crisis counseling, referral to other agencies or professional resources, and vocational and educational placement. The District will cooperate and assist other agencies with the diagnosis and treatment of students referred for responsive services. Student information will not be provided to outside agencies until the student's parents/guardians have signed a release of information form. Except as required by law, the cost of diagnostic and treatment services provided outside the District is the sole responsibility of individual parents/guardians. Psychological Testing of Students

Psychological tests administered to students by qualified District personnel or appropriate diagnostic agencies will ensure quality psychological services in the District, and will protect the educational rights, dignity and privacy of students and parents/guardians.

Psychological evaluations will be made only after informed and written consent of the student's parent/guardian is obtained. A conference will be held with the parent/guardian to review all test results and the student's specific educational needs in the educational program. Psychological data are only partial criteria for determining any change in a student's educational program. Psychological data older than three years shall not be used as the basis for prescriptive teaching or placement.

All psychological services provided by the District or agencies contracted by the District will be in accordance with state and federal statutes and regulations concerning the privacy of student records and use of psychological services. Health Services

The Board of Education believes that in order to provide for the safety and wellbeing of its students, it is necessary to implement and maintain a District-wide student health services program. The health service staff will be responsible to their building principal and may also be responsible to a designated District administrator.

The District will be responsible for providing first aid or emergency treatment for students in cases of sudden illness or injury. Where necessary, and with notice to the parent/guardian, emergency health services will be secured. The parent/guardian is responsible for their child's medical treatment.

Inoculations of Students

All students attending District schools are required to be in compliance with state programs mandating immunization against specific diseases. Failure to comply with District immunization requirements will result in exclusion from school until proof of compliance is provided. Homeless children will be granted a temporary twenty-four (24) hour grace period within which to submit proof of compliance.

The Superintendent shall institute procedures for the maintenance of health records, which are to show the immunization status of every student enrolled or attending in the District, and for the completion of all necessary reports in accordance with guidelines prepared by the Department of Social Services-Missouri Division of Health.

Students with Communicable Diseases

A student shall not attend classes or other school-sponsored activities, if the student (1) has, or has been exposed to, an acute (short duration) or chronic (long duration) contagious or infectious disease, and (2) is liable to transmit the contagious or infectious disease, unless the Board of Education or its designee has determined, based upon medical evidence, that the student:

1. No longer has the disease.
2. Is not in the contagious or infectious stage of an acute disease.
3. Has a chronic infectious disease that poses little risk of transmission in the school environment with reasonable precautions.

School officials may require any child suspected of having a contagious or infectious disease to be examined by a physician and may exclude the child from school, in accordance with the procedures authorized by this policy, so long as there is a substantial risk of transmission of the disease in the school environment.

A student who has a chronic infectious disease, and who is permitted to attend school, may be required to do so under specified conditions. Failure to adhere to the conditions will result in the student being excluded from school. A student who has a chronic infectious disease and who is not permitted to attend school or participate in school activities will be provided instruction in an alternative educational setting in accordance with District policy.

Students with acute or chronic contagious or infectious diseases and their families have a right to privacy and confidentiality. Only staff members who have a medical reason to know the identity and condition of such students will be informed. Willful or negligent disclosure of confidential information about a student's medical condition by staff members will be cause for disciplinary action.

The District will implement reporting and disease outbreak control measures in accordance with the provisions of Missouri Department of Health publication PACH-16, "Prevention and Control of Communicable Diseases: A Guide for School Administrators, Nurses, Teachers and Day Care Operators," a copy of which shall be on file in the office of the Supervisor of Health Services and in the office of each school nurse.

Administering Medicines To Students

It shall be the policy of the Board of Education that the giving of medicine to students during school hours be discouraged and restricted to medication that cannot be given on an alternative schedule. Student Physical Examination

The Board of Education may require any student to be examined by a physician for the purpose of determining whether the student is afflicted with a contagious or infectious disease or have the liability of transmitting the disease.

The Board may also require certification from a physician indicating a student's fitness to participate in specific educational programs or extra-class activities.

Refusal on the part of parent/guardian to obtain the required examination and to submit the certification indicating freedom from contagious or infectious disease may result in student exclusion from school.

Students may be excused from engaging in required educational activities upon proper certification from a physician advising of student disability.

All costs of physical or other examinations shall be at the expense of students unless state or federal law specifically mandates the examination to be the responsibility of the school.

Do Not Resuscitate (DNR) Orders

The School District recognizes that some students have progressive medical conditions that may result in the students' death while present at school or school activities. The District appreciates the difficult medical and emotional decisions that must be made when families choose to limit resuscitative efforts for these students. Accordingly, the administration shall develop procedures for evaluating requests by a parent or guardian that the District honor a Do Not Resuscitate (DNR) order from a licensed physician.

At a minimum, the procedures will require an individualized evaluation of each request. The procedures will comply with federal and state law. A health care and resuscitation/non-resuscitation plan shall be developed for each request and shall include a determination regarding what if any resuscitation efforts are appropriate. Health care and resuscitation/non-resuscitation plans will be developed by a multidisciplinary team that shall include the student's parents or guardians and physician; appropriate school personnel (including but not limited to, the principal, counselor, and school nurse) and their consultants; and when appropriate, the student. This team will consider the best interests of the student.

The team will also address and plan for the effect of a student's sudden death on other students and staff in each school setting in which the student participates. Health care and resuscitation/non-resuscitation plans shall be reviewed regularly and have a specific limited duration. Such plans will be communicated to all school personnel who have a need to know in order to implement these plans. The administration shall coordinate with local emergency medical services to implement the plans.

Student Publications

The Board of Education encourages student production and distribution of publications which can provide opportunities for practical journalistic experience and for the written expression of differing opinions. The Board of Education recognizes that freedom of speech and press bring corresponding responsibilities, therefore, in its inherent authority based on Missouri Public School Law, it designates the school principal as the Board's representative. The principal, through appointment of a faculty advisor, shall provide guidance to students in appropriate methods for preparing and producing publications.

The building principal/designee may delay or stop distribution of any materials proposed for printing or that have been printed which may be reasonably forecast to cause substantial and material disruption or obstruction of any lawful mission, process, or function of the school.

Interscholastic Activities and Athletics

The District provides opportunities for students to participate in interscholastic activities and athletics. The interscholastic programs should encourage participation by as many students as possible and should be carried on with the best interests of the students as the primary

consideration. The programs are expected to be well organized and well conducted and to have a positive influence on the students and the community.

Participation in interscholastic and extracurricular activities is a privilege and not a right. Interscholastic competition may be withheld from any student as a condition of discipline. Furthermore, all policies that apply to the regular school day apply also to interscholastic competition. Coaches and sponsors may establish policies for their groups in addition to those set out by the Missouri State High School Activities Association.

Hazing

Student hazing is inconsistent with the educational goals of the District and poses a significant risk to the physical and mental welfare of District students. Hazing of students, on or off District property, is prohibited and may result in suspension from school and from activity/athletic participation.

Student Group Use of School Facilities

Pursuant to the Equal Access Act, District secondary schools will provide an opportunity for student-initiated noncurricular groups to conduct meetings on school premises, during noninstructional time, and will not discriminate against students on the basis of the religious, political or philosophical content of the speech at such meetings.

An activity is to be considered curricular if the subject matter is or will be taught in a regularly offered class; if the subject matter concerns the body of courses as a whole; if participation in the group is a requirement for a course; or if academic credit is available for participation. Extracurricular activities include activities organized and supervised under the auspices of the school. Extracurricular activities primarily involve students in activities occurring outside academic class time, for which no units of credit are awarded. Any activity which does not meet the definition of a curricular or extracurricular activity will be considered noncurricular.
