Services for Students with Disabilities

The District does not have a general curriculum for students with disabilities. Instead, it is the policy of the District to develop an individualized educational program (IEP) for each public school student with a disability who needs special educational services pursuant to the Individuals with Disabilities Education Act (IDEA) and an accommodation plan for students who are qualified only pursuant to Section 504 of the Rehabilitation Act. Each IEP is designed to meet the unique needs of the student and to offer a free appropriate public education. In addition, the District's IEPs will address the extent to which each student's disability affects his/her ability to access the District's general curriculum and what modifications, accommodations, and supplementary aids and services, if appropriate, are necessary to provide for such access. Each public school student with a disability will be educated to the maximum extent appropriate with children who are nondisabled. However, students with disabilities may be assigned to special classes, separate schooling or removed from the regular educational environment when the nature or severity of the student's disability is such that education in the

regular educational environment with the use of supplementary aids and services cannot be achieved satisfactorily.

The District will provide special education and/or other services to students with disabilities in accordance with applicable law, including the IDEA, and its amendments, Section 504 of Rehabilitation Act of 1973, 162.670-.995, RSMo., and Missouri's State Plan for Part B.

If a student has had his/her curriculum substantially altered or modified pursuant to an IEP, 504 Plan, and/or in connection with a plan of homebound instruction so that the academic requirements (including but not limited to the requirements for achieving a specific letter or numerical grade) for one or more courses have been significantly reduced as compared to the regular course or courses, the IEP team or 504 team (or in the case of a student receiving homebound instruction who is not covered by an IEP or 504 Plan, the principal, counselor, and classroom teacher(s) for such course(s) shall determine whether the student shall be included in the computation of class rank. Students who are not included in the class ranking shall still receive a cumulative grade point average (G.P.A.) and shall be eligible for the honor roll.

Challenged Materials

The Board has the ultimate responsibility for establishing the curriculum and for purchasing instructional and/or media materials to be used in the District. While the Board recognizes the right of students to free access to the many different types of books and instructional materials, the Board also recognizes the right of teachers and administrators to select books and other materials in accord with current trends in education and the established curriculum.

It is therefore the policy of the Board to require that books and other instructional materials shall be chosen for values of educational interest and the enlightenment of all students in the community. Instructional materials shall not be excluded on the basis of the writer's racial, nationalistic, political, or religious views. Every effort will be made to provide materials that present all points of view concerning international, national and local problems and issues of our times. Books, or other instructional or media materials of sound factual authority, shall not be prescribed, nor removed from library shelves or classrooms on the basis of partisan or doctrinal

approval or disapproval. The Board will strive to provide stimulating, effective materials that will be appropriate to the community's values and the students' abilities and maturity levels.

Instructional or media materials used in the District's educational program consist of various types of print and non-print materials. Despite the care taken to select those materials deemed to be educationally useful, occasional objections to the selection of instructional materials may be made by the public. However, the principles of academic freedom and the freedom to read must be defended, rather than the materials.

If a challenge is made, it should be properly channeled through guidelines and procedures established by the Board.
